

TABISH AFZAL

Entry-Level Data Analyst | Data Analyst Intern

Data Analysis | SQL | Power BI | Excel | Python | Business Insights

Location: Basti, Uttar Pradesh, India | **Email:** tabishafzal28@gmail.com | **Mob:** +91-9305281826

LinkedIn: [in/tabish-afzal](https://www.linkedin.com/in/tabish-afzal) | **GitHub:** [tabish022](https://github.com/tabish022)

CAREER OBJECTIVE

Data Analyst fresher who has built end-to-end projects across digital marketing, retail sales, fintech, and healthcare, covering data cleaning, SQL analysis, dashboards, and automation. I use AI tools to speed up my workflow. Looking for an internship or entry-level opportunity to apply these skills on real business data.

PROJECT HIGHLIGHTS

- Built 5 end-to-end portfolio projects across Excel, SQL, Power BI, and Python (all hosted on GitHub)
- Found that small agencies consistently out-perform large ones on ROAS in a 380,000+ row, 4-table marketing dataset
- Modeled a star-schema SQL data warehouse covering 18,000+ customers, 295 products, and 60,000+ transactions
- Built a Power BI dashboard on 100,000+ transactions with KPI and payment-failure tracking
- Built an Excel inventory-risk dashboard automated with Power Query and VBA
- Skilled at cleaning messy, real-world data (inconsistent dates, typo-ridden categories, mixed price formats) into analysis-ready datasets
- Certified in Data Analytics, MySQL, Advanced Python, Microsoft Excel, and Microsoft Power BI (Simplilearn / CodeWithHarry)

CORE SKILLS

- | | | |
|----------------------|-------------------|-------------------------|
| • Data Analysis | • SQL / MySQL | • Jupyter Notebook |
| • Data Cleaning | • Power BI | • Report Automation |
| • Business Insights | • Excel | • AI-Assisted Analytics |
| • Data Visualization | • Python (Pandas) | • Dashboard Development |

PROJECTS

GrowthBridge Ventures — SEO & Digital Marketing Performance Analytics

Tools: Python (Pandas) | MySQL | Power BI | [GitHub Repo](#)

- Cleaned a 380,000+ row, 4-table regional dataset covering 45 agencies and 320 client engagements using Python
- Analyzed relational data in MySQL using joins, CTEs, and window functions to uncover performance patterns
- Found that small agencies consistently out-perform large agencies on ROAS

PhonePe Transactions Analytics Dashboard

Tools: Power BI | DAX | Power Query | [GitHub Repo](#)

- Analyzed 100,000+ transactions across 100,000+ users using Power BI, DAX, and Power Query
- Built KPI tracking for transaction volume, growth trends, and category-wise breakdowns
- Designed payment-failure analysis to flag risk areas across regions

Medical Supply Inventory Risk Dashboard

Tools: Excel | Power Query | Power Pivot | DAX | VBA | [GitHub Repo](#)

- Built a relational data model in Power Pivot with custom DAX measures
- Automated stock-risk flagging and data refresh using Power Query and VBA
- Designed an interactive dashboard to monitor inventory levels across categories

Pizza Sales — Python EDA

Tools: Python | Pandas | Matplotlib | Seaborn | [GitHub Repo](#)

- Cleaned inconsistent raw data — mixed date formats, typo-ridden categories, and inconsistent price formatting
- Identified top-selling items and peak ordering times to support business decisions

SQL Data Warehouse & Sales Analytics

Tools: SQL (Star Schema, CTEs, Window Functions) | [GitHub Repo](#)

- Modeled a star-schema data warehouse spanning 18,000+ customers, 295 products, and 60,000+ transactions
- Answered business questions using window functions, CTEs, and customer/product segmentation logic
- Delivered clean, query-ready fact and dimension tables for downstream reporting

EDUCATION

Bachelor of Commerce (B.Com) — Pursuing, 2nd Year

G.S. Mahavidyalaya, Jamdeeh, Basti (Affiliated with Siddharth University)

Intermediate — 81.6%

High School — 93.6%

TRAINING & CERTIFICATION

- Data Analytics | CodeWithHarry
- MySQL | Simplilearn
- Advanced Python | Simplilearn
- Microsoft Excel | Simplilearn
- Microsoft Power BI | Simplilearn
- Data Visualization | Tata/Forage
- One Million Prompters / Prompt Engineering for AI Systems | Dubai Future Foundation
